Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Sunday 17 Oct 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Rather cloudy and damp. Brief brighter spells possible early Monday.

This Evening and Tonight:
Cloudy and damp during the evening, with intermittent light rain tending to die away later in the night. Fog on high ground. Cloud breaks in southeastern areas later in the night giving a risk of some fog patches around dawn. Minimum temperature 8 deg C (46 deg F).

Monday:
Cloudy in the north. Fog patches in the southeast slowly clearing, also some sunny intervals at first. Becoming breezy with cloud thickening, and further outbreaks of rain arriving around lunchtime. Maximum temperature 16 deg C (61 deg F).

Outlook for Tuesday to Thursday:
Unsettled and rather windy through this period, perhaps especially on Wednesday and Thursday, with spells of rain and heavy showers. Temperatures starting well above average, but trending downwards after midweek.
